MOHAMMAD KAIF KALADGI

UI/UX Designer Web · Mobile · Fintech · EdTech · Healthcare

UI/UX Designer with a Computer Science engineering background, designing web and mobile products for fintech, edtech and healthcare. I take ideas from user research and wireframes to high-fidelity Figma prototypes, and I hand off cleanly to developers because I have built full-stack apps myself. Comfortable working remotely and asynchronously.

EXPERIENCE

UI/UX Designer · FABC

2024 – Present

Beyond Horizon · Hospital Patient Record System — Healthcare

02/2026 – Present

Redesigned the interface to look modern and clean and be easy to use for doctors, staff and patients. Security and patient safety are built into every page, and patient data is organised so doctors search less and attend to patients faster.

Skellerium · Online Learning Platform — EdTech

07/2025 – 01/2026

Ran user research, then created wireframes, visual designs and high-fidelity prototypes for new web and mobile features.

Stabilix · Blockchain Crypto Trading Platform — Fintech

08/2025 – 09/2025

Led the design of web and mobile apps from concept to launch: wireframes, user flows, visual design and interactive prototypes.

Java Full Stack Apprentice · KodNest, Bengaluru

2023

Built full-stack apps with Java, Spring Boot, Hibernate, MySQL and React JS. Worked in a team with Git and Jira and learned the developer's side of design handoff.

SELECTED PROJECTS

TunHub
